THIS IS UNEVALUATED INFORMATION

25X1

The idea of erecting a power plant in Tuerchau (Turów) (O-51/G-08), west of the Neisse River was first voiced two years ago. The plans of this power plant are now being elaborated. Although the Germans had pointed out to the Poles that this plan was utterly unfeasible, the Poles insisted on the construction of the power plant. They plan to set up a combine in Tuerchau. Project designs are not in the hands of the Germans.

25X1

**Comment:** At present Poland still supplies the Hirschfelde power plant with coal from Tuerchau and is furnished with electric current from Hirschfelde. No information is available as to whether Poland will stop deliveries of coal to Hirschfelde after completion of the Tuerchau power plant.
